

Let's find THE LOGO for the 16th SUBUD WORLD CONGRESS!

The World Congress Organising Team (WCOT) would like to invite any interested Subud members to help design the logo for the upcoming 2022 World Congress in Kalimantan. The logo will be used on the official congress website, social media, letterheads, posters, newsletters, merchandise and more!

The prize? Free registration!

The winner will receive free registration to the 2022 World Subud Congress.

Our panel of judges from around the world, along with the WSA Executive, will select the winner. The winning logo and the name of the designer will be shared in various Subud publications.

The following requirements should be met by your logo:

- The text should include: Kalimantan 2022, 16th Subud World Congress

- Please definitely use the Subud symbol and consider the following guidelines:

1. The color for the Subud symbol is gold, yellow or white on a blue or black background. Other possibilities, although not preferred are lines and circles to be blue, black or gold on white or transparent background.
2. No lettering, lines or other designs should ever be placed directly above the symbol.
3. The symbol may not be used as part of another design, for example with rays of sunlight or other design elements around it.
3. The symbol should be visibly clear and unadulterated, which means that letters or other design elements should not cover or be behind the symbol or be visible through the symbol.

Here is another tip: Familiarize yourself with the beauty of Central Kalimantan (consider the flora & fauna) and Dayak culture.

Since it is an official logo, you must be a Subud member to submit a design. Also, please know that by submitting a design, you are automatically surrendering the full rights to your design to WSA.

The final submission date is March 15, 2020. Please send your logo design to the following e-mail address: coordinator.wcot2022@subud.org

Send you work with the subject email:
World Congress Logo 2020 - Your name

Happy designing!
